

AHOP User Guide

AgilityCare Health Operations Platform — Staff & Evaluator Guide

Login URL (cloud): <https://ahop.jhewhome.xyz/login>

Login URL (local): <http://localhost/snipe-it/public/login>

After demo seeding, use **username** (not email) and password **demo1234**.

1. Getting started

1.1 Log in

1. Open the login page.
2. Enter your **username** (e.g. **reception**, **physician**, **clinicadmin**).
3. Enter your password.
4. Click **Sign in**.

1.2 Built-in Staff Guide

After login, open **Staff Guide** from the sidebar (if enabled). It describes roles, policies, and recommended workflows.

2. Role-based workflows

2.1 Reception (**reception**)

Typical day:

1. **Reception** → **Check-In** — Register walk-in patients or check in scheduled appointments.
2. **Patients** — Search, register, or update patient demographics.
3. **Appointments** — Schedule follow-up visits; use calendar view.
4. **OPD** → **Queue** — Confirm patient appears in queue after check-in.

2.2 Clinic Staff / Physician (**physician**, **dr.santos**, etc.)

1. **OPD** → **Queue** — Select patient from queue.
2. Open visit — Record chief complaint, vitals, assessment, diagnosis.
3. Create **lab order** from visit if needed.
4. Mark visit **completed** (may auto-create billing invoice).
5. Print **medical certificate** when required.

2.3 Laboratory (**labtech**)

1. **Lab Orders** — View pending orders.
2. Open order — Enter results (test name, value, unit, flag).
3. Status moves to **in progress** then **completed**.

2.4 Clinic Administrator (**clinicadmin**)

1. **Dashboard** — Review daily operations (patients, OPD, lab, billing).
2. **Billing** — Issue invoices, record payments, print receipts.
3. **Reports** → **Clinical** — Export operational reports (CSV).
4. **Clinical Analytics** — Review trends and equipment metrics.
5. **Admin** → **Users** — Assign staff to AHOP role groups.

2.5 Biomedical (**biomedical**)

1. **Medical Equipment** → **List All** — View asset registry.
2. **Maintenances** — Schedule and track equipment maintenance.
3. Review equipment alerts on dashboard.

3. Module reference

Patients

Action	Navigation
List patients	Sidebar → Patients
Register patient	Patients → Create
Clinical summary	Patient profile → Clinical summary
Company / clinic site	Set on patient form (Company field)

Appointments

Action	Navigation
List	Sidebar → Appointments
Calendar	Appointments → Calendar
Send reminder	Appointment detail → Send reminder (requires patient email)

OPD visits

Action	Navigation
Queue	Sidebar → OPD → Queue
New visit	OPD → Create
Lab from visit	Visit page → Create lab order
Medical certificate	Visit page → Medical certificate

Billing

Action	Navigation
Invoices	Sidebar → Billing
Add payment	Invoice → Record payment
Receipt	Invoice → Print receipt

4. Demo data

After running `php artisan ahop:seed-all`, the system includes:

- 10 demo patients (e.g. Maria Santos Dela Cruz)
- Sample OPD visits, appointments, lab orders, invoices
- Medical equipment categories and sample assets
- Demo staff accounts (see main documentation)

Demo patients are prefixed with patient numbers like `AC-900001` and may be deleted in test environments.

5. Attending physician

OPD and appointment forms include an **Attending Physician** dropdown populated from users in:

- AHOP Clinic Staff
- AHOP Clinic Administrator

Seed physicians: `php artisan ahop:seed-physicians`

6. Tips

- Use **Ctrl+F5** after UI updates to refresh cached CSS.
- **Company** field on patients represents the **clinic site** (not employer).
- Stop using Excel or paper logs for new patients once AHOP is live (per Staff Guide policy).
- For password resets, contact clinic administrator or IT superuser.
